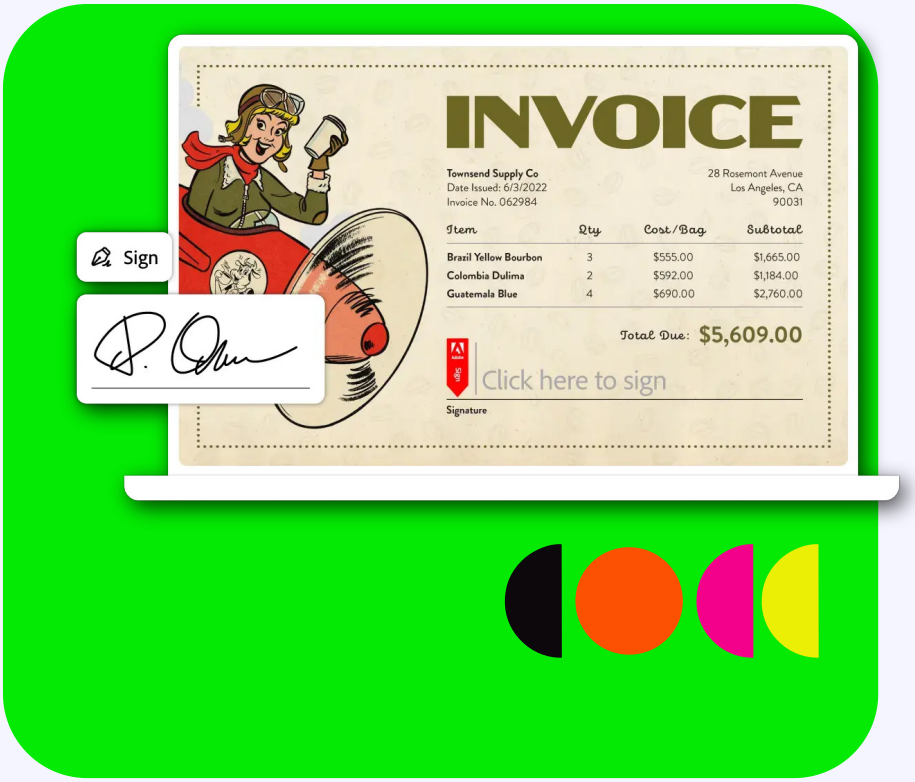
Acrobat Sign

Do business faster with eSign features from Acrobat.

Power every agreement and accelerate approvals with fast, secure eSign and PDF capabilities.



The Adobe difference

A global brand you can trust

The leader in digital documents

Powering business at scale, worldwide

See how Acrobat with eSignatures can accelerate business workflows.

Collect Signatures

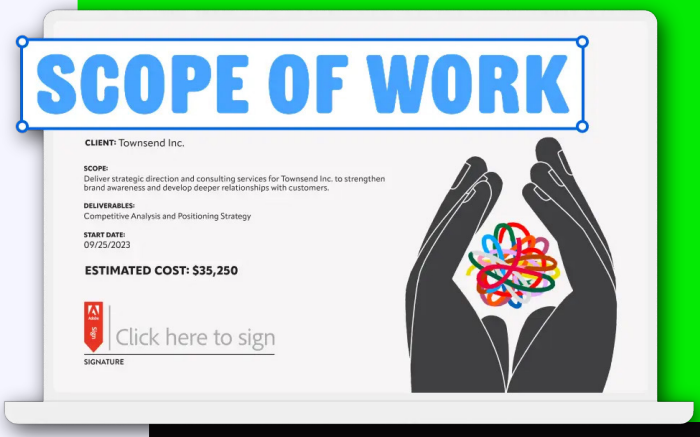
Request and collect eSignatures faster.

- Send documents for eSignature directly from Acrobat on any desktop or mobile device.
- Send a document to multiple signers at once to save time. Recipients get their own personalised versions.
- With no usage caps in Acrobat for teams plans, you can collect an unlimited number of eSignatures.
- Ensure a seamless eSigning experience for all, with easy access from start to finish.

Get Powerful PDF Tools

Do more, faster, with powerful PDF tools..

- eamlessly create, edit, eSign and collaborate on PDFs from any device.
- Manage signatures, work on PDFs and organise your electronic records — all on one platform.
- Send and sign PDFs without leaving Microsoft Word, Teams, Salesforce, Workday or other apps you're already working in.



Boost Productivity with AI

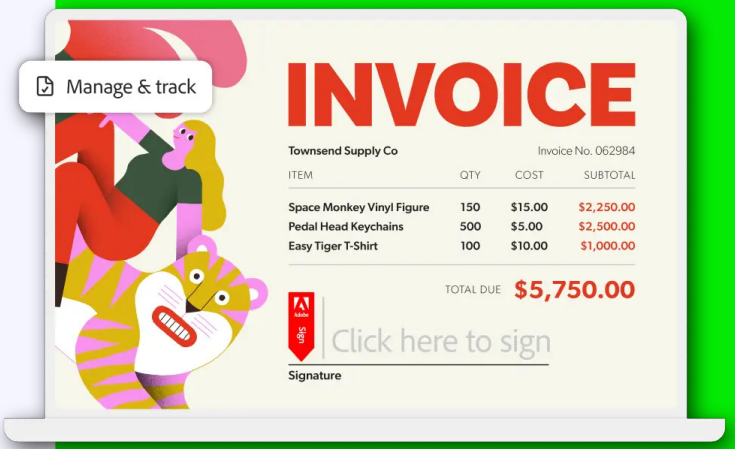
Work smarter with AI in Acrobat Studio or the Acrobat AI Assistant add-on.

- Summarise documents, get insights and ask questions with PDF Spaces and a prebuilt AI Assistant.
- Get insights across PDFs, Microsoft 365 files and web links. Validate responses with precise citations.

Track & Manage

Track eSignature requests and manage signed documents.

- Get audit trails and real-time visibility on the status of the documents you've sent for signature.
- Receive notifications when documents have been signed and completed.
- Store signed documents in Adobe Document Cloud or your integrated Box, Dropbox, Google Drive or Microsoft OneDrive accounts.



Fill & Sign

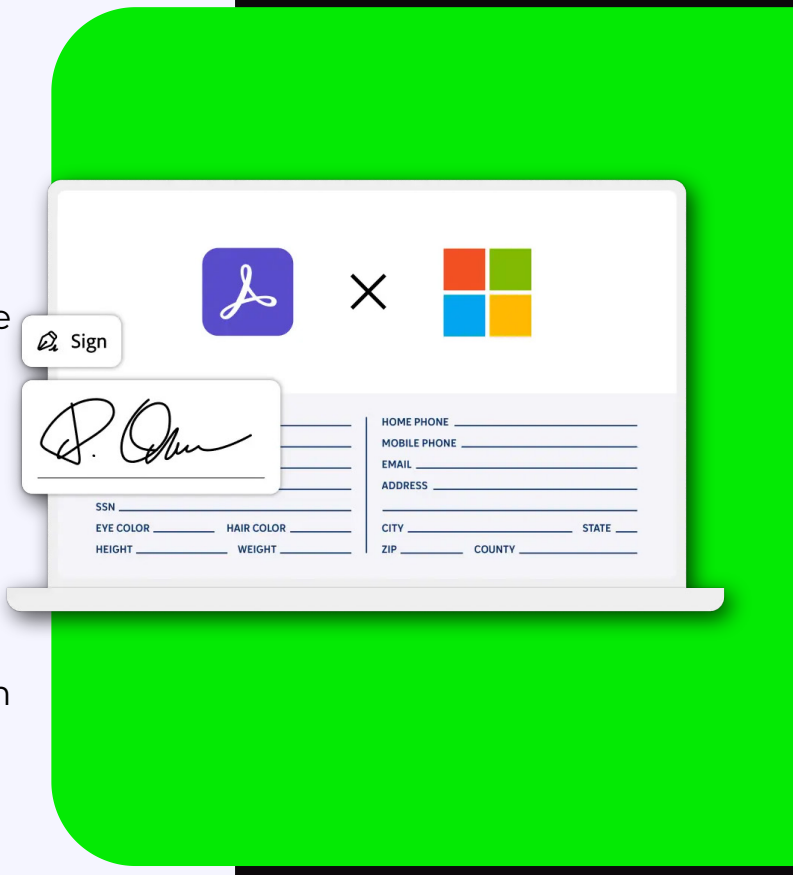
Fill and sign documents and forms.

- Apply your signature to PDFs quickly and easily, right within Acrobat.
- Quickly fill in forms and add your signature.
- Share a signed document by creating a link and sending it to others

Create Forms

Create reusable forms to collect signatures from others.

- Create and post signable forms on your website so visitors can easily fill and sign agreements.
- Prepare forms for others to fill by automatically adding signature and business fields to documents or create your own customised form fields.
- Convert Microsoft Word, Excel or scanned forms into PDF forms and prepare them for eSignature.
- Create and manage templates for frequently used forms and share them across your organisation with an Acrobat for teams plan.



Add Customised Branding

Add your branding to customise your agreements.

- Add your logo, tagline and welcome message to emails requesting signatures.
- Customise your confirmation page with your own branding.

Easily manage licences at the organisation level.

Assign and reassign licences for your business from a central Admin Console. Plus, simplify billing to make budgeting more predictable.
